

Preservation and utilization of the historical

Professor Yasuo NAGAI

Investigation on an ancient document

Measurement investigation of a historical architecture

Restoration of the historical architecture

Damage survey of a structure by an earthquake

We're investigating and studying Japanese historical architecture.
Main results include the following.

- Measurement investigation of a historical architecture ;
Jionji – temple (Yamagata Prefecture): Investigation of National historic site
Murata (Miyagi Prefecture) and Masuda (Akita Prefecture) : Important Preservation Districts for Groups of Historic Buildings
- Investigation on an ancient document ;
Ancient document of Iwaki family who was a carpenter master builder (Toyama Prefecture)
- Restoration of the historical architecture ; Town house in Namerikawa (Toyama Prefecture)
- Damage survey of a structure by an earthquake ;
The support to restore the historical architectures hit by Great East Japan Earthquake
Appealing point :
I make the architecture which succeeded to history and culture.

Yamagata University Department of Architecture, Design and Building Science
Research Interest : Japanese historical architecture
